202.24.2025 revision

Tournament rules are in effect starting in January and remain in effect for the entire year.* These rules will only be changed after the November tournament and before the January tournament of the following year

*For 2025, the tournament committee will enforce rules in a manner that aligns with their intended spirit. However, as new experiences provide valuable insights, these rules may be subject to slight adjustments over time to ensure they continue to serve the best interests of the club and its members. ANGLER DIVISIONS: EVENT AND SEASONAL RACES

There are two separate divisions in which an angler may participate in while participating in BABB sanctioned events and for yearly awards and prizes. The divisions aim to minimize concerns about competitive advantages and foster competition among like-equipped anglers. The rules strive to ensure fairness and provide clear guidelines for each division.

The two divisions will be referred to as Division 1 (“Boater”) and Division 2 (“Co-Angler”). The terms “boater” and “co-angler” are only used to describe the typical division angler’s position on the tournament boat as further described below in **Eligibility and Definition of Divisions**.

Members must declare prior to their first tournament competition of the year, the division in which they intend to participate for the season. Eligibility for each division’s participation is defined below.

Yearly awards/prizes for Angler of the Year (AOY) and the Tournament of Champions (TOC) winner will be awarded for each division. Big Fish of the Year is awarded to a single member with the largest fish by weight for the year, regardless of division.

Prospective members and guests will have their division determined by the Tournament Director for each event. Each tournament event requires the payment of tournament entry fees to fund a structured prize pool per division and funding a single Big Fish prize pool shared across divisions.

Eligibility and Definitions of Divisions:

- **Division 1 (“Boater”)** is designed for members in good standing who will be the primary operator of and responsible for a qualifying boat used in club sponsored tournaments.
- **Division 2 (“Co-Angler”)** is designed for any member in good standing who will not be the primary operator of a qualifying boat used in club sponsored tournaments.
- A “co-angler” may choose to participate in the Division 1 (“Boater”) season points race and tournament events. In this case, the eligible competitor agrees to remain in Division 1 (“Boater”) for the season and to forfeit any accumulated Division 2 (“Co-Angler”) points and begin accumulating Division 1 (“Boater”) points from the requested date forward.

Division Rules:

1. Eligible members, after declaring in which single division they will participate for the season, will only participate in that division’s tournament prize pool and points race towards yearly awards/prizes.
2. Prospective members and guests will only participate in the tournament prize pool for the division assigned to them by the Tournament Director as described above. They do not participate in the division’s points race towards yearly awards/prizes.
3. All divisional competitors are responsible for their division’s **mandatory** tournament entry fee prior to participation in a sanctioned event.
4. Competitors who will be the primary operator of a tournament boat will be automatically

- assigned to Division 1 ("Boater").
5. A Division 1 ("Boater") competitor who elects to participate as a "co-angler" shall pay Division 1 ("Boater") tournament entry fees and compete for Division 1 ("Boater") prize pool payouts and earn Division 1 ("Boater") points
 6. In a team event, if a Division 1 ("Boater") competitor competes as a "co-angler" with a Division 1 ("Boater") teammate, the Division 1 ("Boater") prize pool payouts, when applicable, will be divided equally. Similarly, points awarded are shared and are the **lesser** points of the two places achieved. For example: In the instance above, if two Division 1 ("Boater") fish together as a team and they place 1st, the 1st and 2nd place prize pool payouts from Division 1 will be **combined** and equally divided by both competitors. Similarly, points awarded will be equal and the **lesser** of the two placement points. In this same example, nineteen (19) points for 2nd are awarded to both, **not** the twenty 20 for 1st.
 7. A Division 2 ("Co-Angler") competitor is required to be paired with a Division 1 ("Boater") competitor via either a tournament draw, "Pick-Your-Partner" selection, or Tournament Director placement.
 8. A "co-angler" competitor who elects to compete as a "boater" is required to pay the Division 1 ("Boater") tournament entry fee and will compete in the Division 1 ("Boater") prize pool payout*.
 9. A "co-angler" competitor who elects to fish as a "boater" cannot earn Division 2 ("Co-Angler") points towards season's standings*.
 10. In a team event, each competitor's placement is based on the team's total weight within their assigned division.
 11. In an individual event, each competitor's placement is based on the individual's weight within their assigned division.
 12. In a team tournament and for Big Fish purposes, if a division competitor's Big Fish would not contribute to the team's overall weight, yet still be reasonably considered a candidate for Big Fish purposes, that competitor is allowed to possess and transport their single fish to weigh-in without penalty.

**Exceptions must be formally requested and then granted by the Tournament Committee, which may include (and are not limited to) a situation in which a Division 2 ("Co-Angler") competitor would make available a competition boat to accommodate either themselves or another Division 2 ("Co-Angler") competitor who would otherwise not be able to participate. Exceptions must state whether the competitor will earn Division 2 ("Co-Angler") season points and/or be allowed to pay and enter to compete in Division 2 ("Co-Angler") prize pool money while electing to fish as the "boater".*

DRAW TOURNAMENT RULES

These tournament rules will apply during a tournament that has been designated a “Draw” tournament by the Tournament Director.

1. Members must declare their intent to fish the tournament at the draw. If a member is not present they may have an attending member declare intent for them.
2. Prospective members must be present at the club meeting and declare their intent prior to the draw.
3. Participants must declare whether they intend to operate an eligible boat as a “Boater” or require being paired with a Boater as a “Co-Angler” prior to the draw.
4. Priority: Members in good standing are given priority in the event of an open seat and may replace a guest or prospective member, should the need arise. All substitutions/changes must be approved by the Tournament Director.
5. A co-angler can be drawn and paired with a given boater a maximum of two (2) times in any one tournament season. In the event of a repeat third draw pairing, the co-angler will either be placed back into the drawing or draw pairings switched manually by the Tournament Director, at his/her discretion. Upon being drawn, you are guaranteed to fish Pick your-partner tournaments are excluded in the count towards draw pairings.
6. The club secretary will count the number of members fishing to determine the number of boats needed.
7. All Boater names will go into one draw and Co-Angler names into another.
8. This will be a true draw. We will draw pairings of Boaters and Co-Anglers until all pairings are satisfied. The order results of the draw will determine launch order.
 - 8.1. Should the draw result in an unpaired Boater(s), they may elect to bring a guest of their choosing
 - 8.2. Should the draw result in an unpaired Co-Angler(s), they may be paired, in order drawn, at a later time should a Boater become available.
 - 8.3. In a 2-day team tournament, if an angler cannot fish both days, the angler will get credit for the single day’s weight and earn points in the contest based on the weight of the single day. If an angler fishes both days with different partners the participant will be credited with both day’s weights.
9. The last boat drawn will act as the de facto starter and will be in charge of launching the boats according to their launch number.
10. Starting positions will reverse on the second day of a two-day tournament with boat number one assuming duties as the de facto starter.

PICK-YOUR-PARTNER TEAM TOURNAMENT RULES

These tournament rules will apply during a tournament that has been designated a "Pick-Your Partner" by the Tournament Committee.

1. Members must declare their intent to fish a pick-your-partner tournament at the club meeting. If a member is not present they may have an attending member declare their intent for them.
2. Prospective members must be present at the club meeting and declare their intent prior to the launch drawing.
3. Order of Priority for pairing of partners:
 - 1 - Member, Co-Angler
 - 2 - Member, Boater
 - 3 - Prospective member in attendance.
 - 4 - Sponsored guest in attendance
 - 5 - Outside guest not in attendance

The above order shall govern and each must be satisfied before consideration of the next priority. All members are given priority and will be paired with other members who wish to participate in the tournament. If a member has not been paired, a draw will be held to determine the member's partner.

4. The last boat drawn will act as the de facto starter and will be in charge of launching the boats according to their launch number.
5. Starting positions will reverse on the second day of a two-day tournament with boat number one assuming duties as the de facto starter.

TOURNAMENT OF CHAMPION (TOC) RULES

1. Qualifications: Members in good standing either finishing within the top twelve point qualifiers and/or winner of a draw individual tournament event from the previous year standings with minimum participation of 7 events can compete in the one day tournament of champions (TOC)
2. The TOC is held in the following year during a combined club tournament at a lake of the Tournament Committee's choice. This will be a tournament within a tournament
3. The TOC shall be held during a regular draw club tournament. In the case where the event is a 2 day tournament, the weight from the first day of this tournament will count towards the one day TOC.
4. Draw tournament rules shall apply.

Awards and prizes will be given out after the conclusion of the TOC

Photo Event Tournament Scoring - Special Event

A Photo Event is a special tournament format where the measurement of fish is based on length in inches and quarter inch increments. Digital photos of fish using measuring devices are submitted as evidence of catches. The tournament director shall announce the method of photo and length submission. The club will provide club approved measuring boards to each boater and which then must return to the tournament director at the conclusion of the event. To measure a fish's length, lay the fish flat on its side with the mouth closed placed against the perpendicular surface of the measuring board. Measurement is made by the longest straight-line distance from the tip of the head to the end of the longest lobe of the tail.

Big Fish: A fish may be kept in the live well and weighed for Big Fish and will be used for any tie breaker or Big Fish awards.

Photo Standards - Digital photographs of each fish submitted to judges for scoring must meet these criteria:

Unique—Each digital photo submitted by the angler in a photo event must be of a different fish. Subsequent digital photos of the same fish submitted by an angler will be denied.

Visible/Legible—Each photo must be in sharply focused and clear enough for a judge to verify

- Verify the fish's condition. Violation will result in denial of photo.
- Verify the fish's length. Judge will score fish at the greatest length of which he is certain.
- Verify whether the bass' jaw or lip is in contact with the measuring board fence. Inability of the judge to verify will result in a penalty of 1 inch.
- Except where covered by hand or fingers, the entire fish, from mouth/jaw to the tip of its caudal (tail) fin, must be visible in photos. If either end is covered or cropped off, the photo will be denied.

Centered—Camera lens positioned directly over the center of the fish's body, which contributes to accurate measurement by judges. Photos taken at a low angle in order to obscure an open mouth may be denied or penalized at the Tournament Director's discretion.

First-generation—Each digital photo must be a first-generation image (not a photo or screen-shot of another photo). Violation will result in denial of photo.

7. Example Photo
